12. Report by Angela Davis J.D., Acting Senior Deputy, Disability Civil Rights of the Office of Affirmative Action Compliance. (5 Mins.)
-

Office of Affirmative Action Compliance
Disability Civil Rights

Report by Kurt C. Hagen, Deputy Compliance Officer, to the Los Angeles County Commission on Disabilities. Meeting held January 19, 2011.

1. The Disability Civil Rights Section (DCR) is continuing its work on the goals that had been set for fiscal years 2009-2010 and 2010-2011. Our current workload involves the continuation of this two-year workplan involving barrier removal in County departments to maintain and create accessibility for persons with disabilities. Last fiscal year, the focus was, primarily, to complete the assessment of the County facilities to determine the current state of accessibility; while, this fiscal year's focus, generally, shifts to working closely with the departments to determine strategies for the implement of such barrier removal.

2. DCR is working closely with the Department of the Registrar-Recorder in completing a barrier removal project. A new ramp is being constructed to alleviate some path of travel accessibility barriers.
3. DCR is working to assist the Department of Health Services in removing architectural barriers at the entrance of the Edward Roybal Comprehensive Health Center via the replacement of two sets of the current entrance doors with automatic doors.
4. DCR continues to work with the Department of Health Services to resolve accessibility barriers in the parking lot and the service counters at the Long Beach Comprehensive Health Center. The parking lot upgrades have been completed and several of the service counters have been modified, thusfar.
5. DCR continues to work with the Department of Parks and Recreation to remove path of travel and restroom accessibility barriers at Roy Campanella Park. This project is near completion.
6. DCR continues to assess numerous Department of Mental Health sites that had not, previously, been assessed for barriers for persons with disabilities.

Respectfully Submitted,

Date: January 19, 2011
